

Recreation Facilities Need Cited

California Advertising agencies are prepared to start large advertising campaigns to bring tourists to California, the State Chamber of Commerce has announced.

They wish to be sure, however, that adequate and suitable recreational facilities are available. If that matter is taken care of, California should derive an annual income of as much as \$500,000 from this source alone, the chamber stated.

There is to be a meeting in the Hotel Biltmore today and tomorrow on the topic, with Hal G. Hotchkiss of San Diego acting as chairman.

Advice On Fruit Trees Given

Deciduous fruit trees and berry bushes need a continuing supply of water until their leaves have fallen. As long as the leaves are green, says M. H. Kimball of the Agricultural Extension Service, University of California, they are producing plant food which the tree uses in building new roots, new twigs, leaf buds and fruit buds for next year. Irrigations from September through November need not be as frequent as in mid-summer, but be sure the soil under the trees does not dry out.

Major O. A. Tomlinson will discuss National parks and forests. He is the regional director of the National Park Service.

Sport-O-Pins

By John P. Stripling

This department finds that we cannot forego a personal column to sound out a more intimate view of those in the sports line-light. There are many readers of this page who have praised and razed the manner in which we have endeavored to present personalities in sports. So, and if for no other reason than to answer back, we'll crawl out on that well known limb, and hope that it is strong.

During the Torrance-Banning game at the Banning home field, we had as our guest Wilton Wilton former "Wee-Will-O'Wisp" of Westwood, UCLA star gridster and Coach of Santa Barbara State College prior to becoming a Navy man. Lt. Wilton was urged to comment on the ability of our local lads trying and doing for their Alma Mater.

Wilton made notes but said nary a word all during the game.

During our ride back to the office, "Wee Willie" revealed his findings:

"I have two numbers with whom I was very impressed," he informed us, "because they were there. One was number 23."

"That is Godard," we let him know quickly.

"Well, this boy will make a name in college football, if his future performances equal what we've seen today." Then he suggested, slyly: "Tell him about Santa Barbara State."

Then he checked his notes and said: "Number 10 (Frank Dominguez) is just the boy I'd like to have when I'm stalling for the gun, Banning is a strong team, but I noticed every time Frank got the ball, yardage was gained through center." Dominguez is one of our choices for All Marine League, and we could not resist pointing out the facts:

"Did you see that run around his own right end before the gun?" "Yes," Wilton said, "But I would guess that such was not a habit with Frank." We didn't argue with the former U.C.L.A. ace griddler.

Questions from the readers: Q: A few years ago, the Torrance Herald would, after each football season publish its champion for All Marine League. What's to prevent a revival since I have noticed you at all the games I have attended?

Ans.: There seems to be no law prohibiting us from doing it again and we will.

Q: Am a baseball fan and I can be found at the City Park every time T.A.L. plays a game, but I still like to read the report from other sources. My beef is this: I enjoy every good thing said about T.A.L. but you never mention anything about the other team. Those that do not see the games may be inclined to believe they are no good, which is not the case. How about mentioning players from the opposite team? —L. D.

Ans.: You have something there L. D. Will do.

Q: Please state in your next edition what year El Paso became a member of the International League. —B. F.

Ans.: El Paso started its first year in the Mexican National League soon after the outbreak

Torrance Basketball Season Opens

The Marine League basketball competition began last Tuesday, when the Tartars met San Pedro High School.

The Tartars had a fairly successful practice season of six games. They met Long Beach Jordan twice, L. A. Jordan twice, and had one game each with St. Anthony's of Long Beach and El Segundo. Torrance looked pretty good in the two victories over the Los Angeles boys. The Tartars split with the Long Beach Jordan boys, who have a fine squad this year. The other two games, although lost, were close, and by strong teams.

The St. Anthony boys had a 6' 4" team average, which is almost never seen in high school, but Tartars played a fine game, and lost by a small margin.

This year the squad has only 10 members, but of these, eight are experienced. The greatest amount of playing time will undoubtedly go to Bill Stanley, Jim Crawford, Don Teske, Pete Dodos, Bill Jackson, Leroy Wright, and Joe Furgule. Bill Stanley has played 2 years of "B" and is in his second season of Varsity competition, having been chosen a second string All-Marine last season. He is about the best all-around player on the squad.

First string forwards are Don Teske and Pete Dodos. This is the second season of Varsity for both of these boys. They are small, but very fast, and are fine shots.

The guards are Jim Crawford and Bill Jackson, Jim is another letterman; Bill is up from "B". They are very good guards, and have both shown their ability to keep the opposing forwards down to a minimum of points.

Joe Furgule and Leroy Wright will also see a lot of action. These two boys, although not up to the first team, are quite capable of holding down their positions.

The remainder of the second team is made up of Bob Jones, Bob Suttle, and Larry Holliday. This year's team is a well rounded squad and should do fine in League competition.

SEA SCOUTS Sea Scouts held a three-day annual rendezvous in the Marine stadium in Long Beach over the past weekend. The participants were from Region No. 12, which includes California, Nevada, Arizona and Utah.

The prayer that begins with trustfulness, and passes on into waiting, will always end in thankfulness, triumph, and praise.

—A. MacLaren

of World War II. The implication made in "Tribune" of Nov. 22 was intended to construct to the reader that El Paso was a member of the league by international agreement, it being an American team playing a foreign team. The term, international automatically applies in this case. Technically, we feel that International League, applies.

Jap Naval Officer Testifies

Vice Adm. D. Okochi, supreme commander of Japanese naval forces in the Southwest Pacific during the war, bows to the War Trials Commission as he takes the stand to testify in General Yamashita's trial, Okochi disclaimed responsibility for the burning of piers and docks at Manila Bay and said he turned over all land forces under his command to Yamashita Jan. 5, 1945.

No Hope For Torrance To Have "Y" Building Until Drive Is Conducted

Torrance has no hope of having a YMCA building until the men of the community get out and "sell" the "Y" in the form of memberships and subscriptions to construct a building.

This was the reply of local leaders to the inquiry as to whether Torrance might be included as a site for one of the 20 "Y" buildings for which plans are now being made.

Torrance now has a YMCA board and secretary, Ted Meier, financed by the Community Chest. Any effort to secure a building here would have to come from the community, however, W. E. Bowen, one of the board members, declared.

Metropolitan board of directors specially concerned with the plan to spend \$500,000 for new "Y" buildings in the metropolitan area include:

Donald W. Thornburgh, chairman of the capital program committee; Charles U. Shellenberger, associate general secretary; H. F. Whittle, president; and James

W. McCandless, general secretary. Some of these buildings will be of the headquarters type, it is stated, with offices, club and committee rooms.

Others will be what is now accepted as a standard YMCA building, including lounges for young people and adults; all-purpose social halls, club rooms, swimming pools, gymnasiums, locker rooms, showers, handball courts, food service, and living quarters.

Although the area has grown phenomenally the physical plant of the Los Angeles YMCA has been expanded very little in that period, it was stated. About eight million more feet of space are needed, although the program as drafted now provides for only somewhat more than six million feet. This will more than double the present cubic feet of space available, which are somewhat over five million.

GROWER-CONSUMER CAMPAIGN

GROWERS REPORT A BUMPER CROP FOR 1945

Enjoy juicy-ripe desert grapefruit these days! Arriving just in time to help fortify your family against the threat of winter colds, 1945's bumper crop of the popular citrus fruit is well represented at your neighborhood Safeway Store. Make grapefruit juice a regular feature at your breakfast table. Use halved grapefruit to start or top off various menus. Add the tangy flavor of its segments to salads too. Select from the attractive displays at Safeway.

GRAPEFRUIT

Desert-grown. Thin-skinned, juicy fruit. Excellent source of vitamin "C". Buy an extra supply this week.

lb. 6¢
Priced by the pound to save you money.

KITCHEN CRAFT FLOUR

5-lb. sack **29¢**
Made for home baking. Easy-to-blend, enriched wheat flour. (10 pound sack, 55¢)

SIERRA PINE SOAP

2 bars **13¢**
Fine toilet soap that has the fresh fragrance of real mountain pines.

MORNING GLORY OATS

20-oz. pkg. **12¢**
Quick oats of full, whole, field-ripened grain. Rich in Vitamin B. (43 oz. pkg., 26¢)

TOMATO JUICE

46-oz. can **20¢**
If you like fresh-tasting juice you'll like Sunny Dawn Brand.

SAFEWAY GUARANTEED MEAT

There is no substitute for quality. Now that meat rationing is off, you can purchase a plentiful supply of top-quality steer beef at your neighborhood Safeway. We have a good selection of all your favorite cuts, aged to the peak-of-goodness for real eating enjoyment.

- ALL MEAT NOW POINT-FREE!**
- SIRLOIN STEAK** lb. **42¢**
Grade AA or A beef. Point free. (Boneless, 52¢ lb.)
